

ADVISOR-MANAGED FUNDS

As a professional advisor, we understand your most valuable asset is the trusting relationship you have with your clients. With an Advisor-Managed Fund at Community First Foundation, your clients can recommend an external investment advisor like you to manage the assets of their donor-advised fund. Give your clients the best of both worlds when you retain your client relationships and we help guide them on their philanthropic journey.

SERVE YOUR CLIENTS WITH TAX-ADVANTAGED CHARITABLE SOLUTIONS

An Advisor-Managed Fund is appealing to people who are transferring assets from a private foundation or who have experienced a liquidity event, such as the sale of a business or an inheritance, and want their existing advisors to manage their charitable assets.

By opening an Advisor-Managed Fund, your client receives a customized investment approach and giving tool offered by Community First Foundation, offering impactful, tax-effective philanthropy. We make it easy for funds above \$500,000 to be invested with existing external investment advisors, while considering the fund's time horizon and your client's grant-making goals.

As the investment manager, you develop customized portfolios for your client's investment preferences with the goal of growing assets available for philanthropy. Our expert donor services staff provides excellent philanthropic guidance that is strategic, effective and meaningful for your client. We also handle the grant administration and processing so your clients can focus on fulfilling their charitable passions.

GIVING FROM THE HEART

With our deep knowledge of community needs and local nonprofits, we are uniquely positioned to help your clients give where it matters most. We take the guess work out of giving by verifying charities' 501(c)(3) status, then facilitating the grant approval and distribution of funds.
